

**TEN POINT PLAN FROM SANKHYA TO ACHIEVE THE IDEAL STATE OF VASUDHAIVA
KUTUMBHAKAM FOR THE WELFARE OF HUMANITY.**

1. *Extract unlimited hydrogen from floating platforms, rising and falling daily with the perpetual tidal lift, using low voltage generators to electrolyse sea water at zero operational cost as the ultimate and permanent green fuel. This development alone will ensure zero inflation.*
2. *Develop a unified and economic transport system based on Sankhyan axiomatically derived levitation cum propulsion principles to eliminate the infrastructure needed for movement through road, rail, marine and space*
3. *Maximise Agricultural practices by identifying micro gravitational synchronization through stellar indicators.*
4. *Develop advanced disaster management predictions through forecasting techniques based on gravity field changes due to stellar conjunctions and ecliptic crossings.*
5. *Manufacture magnet powered self driven free energy gravitational convertor / generators operating at maximum efficiency as a green energy electrical power supply for residential and electric car battery charging free of cost. Working model is running in Kotagiri.*
6. *Implement holistic predictive planning through Ayurvedic principles of integrating flora & fauna with food & medicinal crops in a harmonious synergistic loop through soil conservation and induced rainfall thus maximising yields holistically.*
7. *Implement holistic predictive planning to establish the optimum financial resource recycling system of governance to achieve zero inflation.*
8. *Establish skill development based on identification of inherent genetic traits to enable a highly motivated & result oriented workforce.*
9. *Introduce Siddhi meditational practice as the ideal means to maximize individual self-potential based on Sankhya axiomatic principles..*
10. *Request ISRO to confirm through experiments on other planets the mathematically proven unification of Quantum Mechanics with General Relativity through the Sankhyan Moolaprakriti identified as the quantum gravity mediator in Space.*
